

Hamstring Pain and Injury

Dear Justine,

I couldn't believe it only took me one treatment of acupuncture and acupressure to completely relieve the hamstring pain in my leg. It would have taken me many appointments with physiotherapy as it did in the past. I am very happy with the results.

Thank you, Jason V. - February 2009.

I've never received such medical treatment like I did with Justine, I had seen two different people and after \$1250.00 someone gave me Justine's number and she not only fixed my leg in two visits but also educated me on how to prevent it from happening again.
